

Art. 307 EFT/POS & Retail Cleaning Card

(Credit- / Debit- / EC- und Client Cards) for mechanical and motorized Insertion Readers and Swipe Readers

FLOCKTECHNOLOGY

Features	EFT/POS & Retail Cleaning Card, partially flocked with FLOCKTECHNOLOGY on both sides, moistened with pure, top quality solvent, packed in convenient tear-open pouch (Sachet). To clean magnetic heads, chip contacts, transport rollers and belts.
Application	EFT/POS & Retail payment terminals (credit- / debit- / EC- and client cards). For the cleaning of mechanical and motorized insertion readers and of swipe readers.
Specials	The excellent cleaning quality of this EFT/POS & Retail cleaning card is achieved mainly by the following three factors: <ol style="list-style-type: none"> 1. The FLOCKTECHNOLOGY - guarantees very high dirt absorption thanks to the brush effects. 2. The pure, top quality solvent - provides for the release of strong dirt, without attacking materials. 3. The convenient tear-open pouch - contains the EFT/POS & Retail cleaning card moistened with the correct amount of pure top quality solvent. It is simple to handle and therefore very user friendly.
Benefits	Higher reliability of EFT/POS & Retail payment terminals. Reading errors are eliminated, equipment failure due to contamination is significantly reduced. The simple and safe handling of this EFT/POS & Retail cleaning card enables the operator, even without technical understanding, to maintain a quick and optimal cleaning.
Technical Data	Base Material: PVC, FLOCKTECHNOLOGY , partially flocked on both sides, moistened with pure top quality solvent, packed in convenient tear-open pouch. Dimensions: 54 x 86 x 0.96 mm
Article Number	307.020.000
Packaging	transparent box of 20 pieces
